

Learning Today, Leading Tomorrow

Who We Are

Vanguard-Sentinel Career & Technology Centers (VSCTC) is an award-winning school district with proven results in Career Technical Education (CTE) for high school and adult students. Our two campuses - The Vanguard Tech Center in Fremont and Sentinel Career & Technology Center in Tiffin - offer skilled instruction in career-technical labs using cutting-edge technology.

Our Goal

To provide students with marketable skills that will prepare them for careers in the industry of their choice, college or the military so they can compete in the global marketplace.

Our Commitment

We are committed to providing students with a challenging curriculum, skilled instruction from experts with real-world experience, and a learning environment that emphasizes individual student success.

School of Choice

As a school of choice, we offer more than a "traditional" high school by introducing students to Career Technical Education in a blended learning environment focused on the student's area of interest and relevance to their future goals.

Our Beliefs

As educators, we believe in the value of teamwork, commitment, collaboration, and communication. Our staff values continuous learning in order to improve student performance. We also believe in the power of personal connections between staff, students, parents, and the community.

Job-Ready

Our students graduate with valuable industry credentials and skills employers seek.

College Credit Plus

Students earn high school and college credits at the same time by taking college courses from nearby colleges or universities. College Credit Plus courses are free; provided at no cost to the student for tuition, books or fees.

Adult Workforce Development

VSCTC also offers life-long learning through its Adult Workforce Development programs. These programs are geared for adults seeking to return to the workforce with improved skills, or for those wanting to change careers and who need new skills to do so.

VSCTC BENEFITS

BRONZE-PLATINUM PROGRAMMING: 1-, 2-, 3-, & 4-YEAR TRAINING OPTIONS
