The Vanguard-Sentinel Career & Technology school district continues to be committed to providing a safe environment to facilitate the highest quality career technical education possible while adhering to all local, state, and national guidelines.

We have developed a plan for the 2020-2021 school year that consists of safety protocols that will be in place to best protect students, staff, and visitors within our school district. The plan is posted on our website at vsctc.org under the "District Opening Information" link on the main page. The plan remains contingent upon any changes/recommendations from our local and state health departments and is subject to change at any time for that reason. Vanguard-Sentinel will remain flexible throughout the 2020-2021 school year to ensure we are following the proper safety procedures and we will adapt as the situation requires.

New student orientations will take place August 21st, 24th, and 25th. You will receive a schedule for your appointment time from each building. You will find three learning schedules in the plan. Due to the constant changes within the state level alert system, the exact schedule we will begin the school year on will be determined as we get closer to the start of the first planned student day of August 26th.

While we acknowledge that there will always be a certain level of risk involved with face-to-face learning, it is our goal to remain open to provide the best learning experience for our students. We recognize that career technical education is a staple for our community and the hands-on portion of learning is paramount to the skill development of each career.

Thank you for your continual support in the Vanguard-Sentinel school district. With partnership from our students, parents, and community members, we will continue to strive towards providing a high-quality career technical education in a safe environment for everyone.

Gregory A. Edinger
